Welcome to Virden

In 1883 the community of Gopher Creek, created by settlers from Great Britain and Eastern Canada looking for opportunity and a better life, became Virden and an important node in the national rail system. The population swelled as the brick and flour industries grew in tandem with agriculture. The community became the hub of transportation, processing, and services for the greater region. Growth in population and the economy continued with investments in a Commonwealth Air Training Combat School during WWII, and the discovery of significant oil deposits in 1951 and 1953.

The sports and recreation communities in Virden are thriving. Local and regional sports groups make use of our arena (Tundra Oil & Gas Place), which boasts an NHL sized ice surface, indoor walking track, fitness centre and banquet halls. We also have an outdoor heated swimming pool with waterslide, curling rink, golf course, spray park, skateboard park, fishing pond, lawn bowling, soccer fields, and ball diamonds, along with many other activities available throughout the year.

Virden is home to the Virden Indoor Rodeo and Wild West Daze, an annual rodeo that has long been a source of entertainment and excitement for Virden and the surrounding area.

Victoria Park displays beautiful landscaping and greenspace, and an outdoor bandshell is available for many types of entertainment performances. Annual Canada Day celebrations are hosted at Victoria Park on July 1st for residents and visitors.

“The Aud” Theatre (originally opened in 1912, and again after renovations in 1983) is home to many entertainment groups. The Pioneer Home Museum takes visitors back in time, while the CP Station has an art gallery that is sure to please one’s artistic senses. The Border Regional Library offers many programs for a variety of ages and interests. Many of these activities are located in beautiful heritage buildings.

Virden has a strong service and education community. Virden’s many churches and service groups work hard to make our community a great place to live. These groups are active in meeting the needs of Virden’s residents through dedicated volunteerism. Virden has four schools and many organizations who strive to bring education and literacy opportunities to residents.

Virden is located, quite literally, at the Centre of It All. Located on the Trans–Canada Highway and the cross–Canada CPR line, Virden is also on Highway 83, which bisects the entire continent, running over 3000 km straight south to the Gulf of Mexico – known as the ‘Palms to Pines’ route. We are centered between two provincial capitals, and at the virtual centre of the nation’s east and west coasts. With our diverse natural resources, thriving agricultural industries, abundant water, skilled workforce, and affordable quality lifestyle opportunities – Virden continues to draw new and diverse families, businesses, and industries to the region.

Vehicles

If you are purchasing a vehicle you may want to know if it was involved in an accident. MPI Service Centres can do a vehicle search for you in order to provide collision information on a specific vehicle. You must have an accurate serial number with you when you request a vehicle search. If you ask, they will also send out the “estimate sheet” that sets out the details of previous damage. This process can take a few days.

Drivers

If you hold a valid driver's license from another jurisdiction, you may operate a motor vehicle in Manitoba for up to three months. After three months, you will be required to exchange your valid out-of-province driver's license for an equivalent Manitoba license without completing written and road tests.

Jurisdiction information is available by contacting MPI or visit www.mpi.mb.ca/Pages/new-to-manitoba.aspx if you have a valid driver's license from a jurisdiction that does not have a reciprocal arrangement with Manitoba, you may operate a vehicle in Manitoba for up to three months. After three months, you will be required to successfully complete a knowledge test and a road test. Before taking these tests, you must register as a Manitoba Public Insurance customer and provide proper identification documents.

New licensees will be required to complete the Graduated Driver Licensing (GDL) program. More information can be found at: www.mpi.mb.ca/Pages/graduated-driver-licensing.aspx

To obtain information on Driver License Identity requirements, visit the MPI website at: www.mpi.mb.ca or call 1-800-665-2410.

The maximum cost (excluding merits or demerits) per year for a driver's license is \$65.00. Driver's licenses other than Class 5 (private vehicle) or 6 (motorcycle) require a medical exam.

 WISVirden

Westman Immigrant Services (WIS) is a community-based charitable organization that assist immigrants and new Canadians by providing three core services: English as an Additional Language (EAL) classes, Settlement Services, and Brandon Community Language Centre Interpreter services. WIS partners with other organizations in order to provide expertise in addressing services gaps for immigrants within the broader community.

Settlement assistance includes orientation to life in a new community, including information about Canadian culture, citizen rights and responsibilities. Referral and access to community services such as medical, legal, educational and financial services are provided as needed.

Immigrants wishing to improve their English are assessed at Westman Immigrant Services in order to attend government-funded classes at Westman Immigrant Services or at Assiniboine Community College Adult Collegiate (Brandon). A variety of English language programs are available for the Canadian Language Benchmarks levels of 1 to 4. WIS also provides an EAL family literacy program that allows parents with young children to attend a class as a family.

English classes are designed to help newcomers live and work successfully in our community.

Professional, accredited interpreters are available through the Brandon Community Language Centre (BCLC). By hiring a qualified BCLC interpreter for high-risk appointments where accurate communication is vital, you can be assured of accuracy, confidentiality and impartiality. This service is offered on a user-pay basis. Contact the office for more information and to book.

Volunteer programs provide personalized assistance by matching immigrants with community volunteers for friendship and support. Westman Immigrant Services has a variety of volunteer opportunities available.

In the early years of Virден, many new immigrant farmers and businessmen would have first

disembarked from the train at this location and passed through the doors of this station. Today the station houses the Virden and Area Arts Council, and the Virden Chamber of Commerce. Also included is an art gallery by Arts Mosaic, as well as a restored caboose car outside the main entrance, as well as a painted rock garden for treasure hunters of all ages.

The Aud Theatre

The Aud Theatre was built in 1911 as part of the municipal building. The building was open to the public on February 29, 1912. The building consisted of a government telephone exchange room, a new courtroom, three large offices, and the opera house, costing \$32,500.00. The population of Virden at this time was about 1,500. The Aud Theatre was constructed by W.T. Manser. The comedy "the Mysogynist" was the first play performed in the theatre. The Great Eastern Sign Painting Co. of Toronto supplied the 22x30 ft curtain. During the '30's and '40's, the Aud was used as a movie theatre.

The ceiling on the stage was originally 40 ft high but it was lowered to 24 ft to save heating costs. The building was originally heated by steam which was replaced with electric heat in 1984-1985 after the renovation and re-opening in 1983. When the theatre fell into disrepair it closed as a movie theatre and the town council was preparing to demolish it. A local steering committee was formed to "Save the Aud" and after substantial renovations, it was re-opened in April of 1983. The lower level consists of 257 seats and the upper level consists of 210 seats. The majestic curve of the balcony gives the audience a panoramic view of the stage. On either side, there are two double-decker boxes which adds an air of sophistication.

St Mary's Anglican Church

This structure is a great example of fieldstone construction. Much of the stone for the fieldstone construction came from along the top of the Assiniboine River Valley. The first church was a frame structure building by Clayton & Sons in 1885. This was the first church building in Virden. Masonry work was done by Mr. Saul of Carberry with carpentry done by Mr. Harrington of Winnipeg. Walter Chesterton, a Winnipeg architect, designed this notable structure while building the school across the street. The cloister and fence were added in 1952.

The church features two stained glass windows created by famous Ukrainian-Canadian artist and sculptor Leo Mol. The church also features a stained-glass medallion window which was presented by the city of Brugge, Belgium, to honor the 12th Manitoba Dragoons.
